Portfolio: bintang-ardhian.vercel.app

SUMMARY

Junior Full-Stack Web Developer with hands-on experience building web applications through internship, academic, and project-based work. Skilled in developing backend functionality with Laravel, PHP, and ASP.NET, and frontend interfaces with React and JavaScript. Experienced in building CRUD functionality, REST APIs, database-driven applications, barcode-based check-in systems, search functionality, Excel data export, and third-party API integrations. Familiar with Git/GitHub and experienced in troubleshooting and improving existing web applications.

Available for freelance, project-based, part-time, and remote web development opportunities.
